

2009 SD Inspection Program Overview

Parameters

- 100 Inspection days: Nathan 50, Stacy 50
- Two year inspection cycle:
 - Areas this year: corrosion, leaks, OQ, IMP
- 2-3 visits to facilitate training for OQ, IMP
- Inspection report formats same as last year
- Focus on issue correction dates this year
- Standard inspections before June
- OQ after June
- IMP in fall

Future

- Plan is for no more than one standard inspection visit per year (construction excluded)
- Optional plan is for one standard longer inspection visit every 2 years covering all the code sections
