Subject: HP14-001: No on Keystone XL

Auto forwarded by a Rule

Dear South Dakota Public Utilities Commissioners Hanson, Nelson, and Fiegen:

I am writing to you to request you reject the Keystone XL Pipeline certification in docket HP14-001. The unethical tactics used by TransCanada, a foreign company, in their dealing with South Dakota ranchers, is reason enough to reject certification! The risks this pipeline and its construction pose to the health, safety, and security of South Dakota's water, land, and people are unacceptable. TransCanada has shown time and time again they are unable to build a safe pipeline. They have lied to the people of South Dakota about the benefits of the pipeline, while ignoring completely the harmful impacts of tarsands mining and the risk to our land and water from inevitable spills.

For these reasons and more, reject Keystone XL.

Thank you for this opportunity to respond, Sincerely, Rick Summerville

Subject: KXL permit

Auto forwarded by a Rule

Dear PUC members and staff:

Based on what future generations will have to deal with, the idea that we'd facilitate the extraction of one of the worst offenders among fossil fuels is ill-considered. To act on this notion should be considered irresponsible.

Apart from that, the proposed, privately-funded pipeline is wrongly allowed the use of eminent domain in cutting up ranchers' properties and endangering the area's water and soils through inevitable leaks and spills.

There can be no real question that the long-term interests of South Dakotans are best served by denying TransCanada's permission to proceed.

Thank you for your consideration of this comment.

Don Kelley

Thank you for your message to my fellow commissioners and me regarding the Keystone XL Pipeline. It will be posted in the South Dakota Public Utilities Commission's formal pipeline siting docket, HP14-001, under Comments and Responses. Since this is an open docket before the commission, any correspondence involving a commissioner must be posted in the open, public docket so that other commissioners and all parties to the case have access to it.

Chairman Chris Nelson
