Mr. Wilson:

This is in response to your message to the South Dakota Public Utilities Commission regarding the Keystone XL Pipeline permit docket filed Sept. 15, 2014. This docket is a certification in which the commission must decide whether or not the applicant, TransCanada, will continue to be required to comply with nearly 100 main and subset conditions placed on its permit by the commission order issued June 29, 2010. This is not a new hearing of the original docket. Here is a link to the earlier commission order with conditions:

Commissioners are judging the merits of this docket, so under South Dakota law we are prohibited from participating in nonpublic discussions regarding it. For this reason, your message and this response will be added to the electronic docket, HP14-001, under Comments and Responses. It can be found online at

As a service to the citizens of South Dakota, we have added information to the site so you may easily obtain facts regarding this docket. Click on the link titled Keystone XL Pipeline updates on the PUC's homepage at www.puc.sd.gov. This will take you to a Frequently Asked Questions document as well as to several other links with information and updates.

Thank you for your interest in this pipeline docket and the work of the commission.

Sincerely,

Gary Hanson, Chairperson

South Dakota Public Utilities Commission www.puc.sd.gov
