Met with Mr. and Mrs. Anderson and we talked over the repairs with Frank and Brett. I also talked to them about the crop damages that was agreed upon with Heath and Eric. I told them that I would need to order the check and my best estimate for delivery would be approximately 10 days..

9-23-2013 I met with Ray and Lillian. I explained our project manager and environmental people agreed they don't have a solution for the erosion over the ROW. Their plan is to fix the drainage on the South, re-grade and bring to level the ROW and plant it to grass. I offered 160 bu corn x 6.8 acres x \$7 per bushel x 5 years for crop loss due to ROW being planted to grass. They said they would think about it and get back to me. Lillian said she didn't want the transition line touched. *Total amount due \$38,080⁰⁰*

10-11-2013 I called Lillian to inform of upcoming wetland survey. She asked what they were doing and why and for what agency. I called back and informed her.

10-14-2013 Lillian called and said Ray thought it was ok to do the wetland survey. She also said they would agree to the offer made to work on the ROW and plant it to grass. I explained it would be next year when they can do the work.

Frank Here do the best we can to stop the erosion by levelling and planting grass. Use laser transits. Bring grade up. Need to build up on south side

Mr. Hrg. ~~New~~ washed out ^{until} ~~pipe line~~ ^{was cut}. Water really started cutting west of ROW after construction. ~~for~~ ^{5 or 6} years any seed will be washed away. She would to know how much has been spent to do repairs ~~since~~ ^{since} construction.

Mr. or Mrs. Anderson are not financially responsible for ~~any~~ ^{damages} repairs ~~on~~ the ROW or ~~or~~ damages outside of ROW that was caused by the pipeline installation.

Mr. Anderson request this ~~quarter~~ ^{quarter} section to be bought by TransCanada. He stated \$5000.00 per acre.

Frank-

We are here to the best we can to stop the erosion by levelling and planting grass. Use laser transits. Bring grad up. Need to build up on south side.

Mr. & Mrs. Anderson-

Never washed out until pipeline was cut. Water really started cutting west of ROW after construction 8 out of 10 years any seed will be washed away. She would like to know how much has been spent to do repairs since construction.

Mrs. Anderson asked that the following be written.

Mr. and Mrs Anderson are not financially responsible for any damage repairs on the ROW or damages outside the ROW that was caused by the pipeline installation.

Mr. Anderson requests this quarter section to be bought by TransCanada. He stated \$5000.00 per acre.

160 bushels corn
X 6.8 acres
1088 bushels
X \$7.00 per bushels
\$7616.00
5 Years
\$38,080.00
