Re: Updated Cogeneration Rates

Dear Ms. Elofson:

In accordance with South Dakota Codified Laws, Chapter 49-34A, Montana-Dakota Utilities Co. (Montana-Dakota), a Division of MDU Resources Group, Inc., herewith requests Commission approval to revise its Occasional Power Purchase Non-Time Differentiated Rate 95, Short-Term Power Purchase Time Differentiated Rate 96 and Long-Term Power Purchase Time Differentiated Rate 97. This filing is made in compliance with the Commission's Order No. F-3365 and in accordance with the Special Terms and Conditions of these tariffs which state that the rate schedules will be reviewed annually and revised upon the Commission's approval.

The methodology used in developing the proposed rates is identical to that used in developing the rates currently on file. The proposed energy payments for Rates 95, 96 and 97 were generated by Montana-Dakota's production costing model (ProSym) and reflect a test year of July 2002 through June 2003. The capacity payments are based on the Mid-Continent Area Power Pool purchase prices. Included as Attachment A is the data used to support the proposed energy payments and monthly capacity payments. Workpapers depicting the calculation of the proposed metering charges are provided in Attachment B and reflect updated meter costs and carrying charges.

Included herein is a second set of the affected tariffs on which Montana-Dakota has indicated the revisions requested by lining through the existing language which the Company proposes to delete and clearly highlighting the new language proposed. In accordance with the Administrative Rules of South Dakota (ARSD), 20:10:13:39(6), it is noted that the proposed rate changes will not affect any customers since no customers are presently served on any of Montana-Dakota's cogeneration or small power production rates in South Dakota. Included as Attachment C is the South Dakota "Report of Tariff

Schedule Change" form required pursuant to ARSD 20:10:13:26. In addition, included as Attachment D is the "Data Requirements" in accordance with the Commission's Order No. F-3563 which discloses certain information for miscellaneous filings.

The Company will comply with ARSD 20:10:13:18 by posting the Notice shown in Attachment E in a conspicuous place in each business office in its affected electric service territory in South Dakota for at least 30 days before the change becomes effective.

Please refer all inquiries regarding this filing to:

Donald R. Ball
Director of Regulatory Affairs
Montana-Dakota Utilities Co.
400 North Fourth Street
Bismarck, ND 58501

The original and ten (10) copies of this Letter of Transmittal and tariffs have been provided to the South Dakota Public Utilities Commission in accordance with ARSD 20:10:13:27.

Montana-Dakota respectfully requests that this filing be accepted as being in full compliance with the filing requirements of this Commission.

Please acknowledge receipt by stamping or initialing the duplicate copy of this letter attached hereto and returning the same in the enclosed self-addressed, stamped envelope.

Sincerely,

Donald R. Ball
Director of Regulatory Affairs

Attachment

OCCASIONAL POWER PURCHASE Rate 95
NON-TIME DIFFERENTIATED

AVAILABILITY:

To any qualifying cogeneration and small power production (COG/SPP) facilities for the purpose of generating occasional electric energy in parallel with the Company's system. This schedule is applicable to cogeneration and small power production facilities with a design capacity of 100 Kw or less, that are Qualifying Facilities as defined under 18 CFR, Part 292.

RATE:

Metering charge for single phase service \$1.80 per month
Metering charge for three phase service \$7.20 per month

I
R

Energy delivered to and accepted by Company by a qualifying facility shall paid for by Company as follows:

1.524¢ per Kwh

I

(Energy delivered per month to Company is limited to 600 Kwh per month. Delivery in excess of this limit will not be compensated.)

ENERGY SALES TO SMALL QUALIFYING FACILITY:

Service provided to such customers by the Company shall be billed at the appropriate rate, by class of customers (i.e., residential, general service, etc.) that is currently on file with the Commission.

SPECIAL TERMS AND CONDITIONS:

1. The rates shall be reviewed annually, updated if necessary, and revised upon the Commission's approval.
2. The Company shall install appropriate metering facilities to record all flows of energy necessary to bill and pay in accordance with the charges and payments contained in this rate schedule.
3. The customer shall, with prior written consent of the Company, furnish, install and wire the necessary service entrance equipment, meter sockets, meter enclosure cabinets, or meter connection cabinets that may be required by the Company to properly meter usage and sales to the Company.

SHORT-TERM POWER PURCHASE Rate 96
TIME DIFFERENTIATED

AVAILABILITY:

To any qualifying cogeneration and small power production (COG/SPP) facilities for the purpose of generating short-term electric energy in parallel with the Company's system. This schedule is applicable to cogeneration and small power production facilities with a design capacity of 100 Kw or less, that are Qualifying Facilities as defined under 18 CFR, Part 292.

RATE:

Metering charge for single phase service \$ 5.75 per month
Metering charge for three phase service \$11.70 per month

Energy delivered to and accepted by Company by a qualifying facility shall be paid for by Company as follows:

SUMMER - April 1 through September 30

ON-PEAK

OFF-PEAK

1.793¢ per Kwh

1.270¢ per Kwh

Summer Peak Periods: The On-Peak Period is defined as those hours between 7 a.m. and 11 p.m. Central Time, Monday through Friday in Central Time zones, and between 6 a.m. and 10 p.m. Mountain Time, Monday through Friday in Mountain Time zones. The Off-Peak Period is defined as all other hours.

WINTER - October 1 through March 31

ON-PEAK

OFF-PEAK

1.872¢ per Kwh

1.283¢ per Kwh

Winter Peak Periods: The On-Peak Period is defined as those hours between 8 a.m. and 10 p.m. Central Time, Monday through Friday in Central Time zones, and between 7 a.m. and 9 p.m. Mountain Time, Monday through Friday in Mountain Time zones. The Off-Peak Period is defined as all other hours.

Definitions of on-peak and off-peak periods are subject to change with change in Company's system operating characteristics.

SHORT-TERM POWER PURCHASE Rate 96
TIME DIFFERENTIATED

Monthly capacity payments will be made on the basis of actual avoidance of capacity during the months of January, June through September, and December. Such payments are to be based on the capacity cost of combustion turbine peaking generation.

Monthly capacity payment = \$4.00 per Kw

R

Monthly capacity payments will be made based on a monthly 85 percent on-peak period capacity factor for the months of January, June through September, and December. The capacity factor is the quotient of the average monthly on-peak period metered capacity (Kw) delivered to the Company during a month, divided by the maximum monthly on-peak metered capacity (Kw) delivered to the Company during a month. All referenced metered capacity readings refer to one hour measured demands (Kw). The monthly capacity payment applicable for the months of January, June through September, and December will be made based on the following formula:

$$\text{MCP} = \frac{\text{MCP per Kw} \times \text{MCF}}{.85} \times \text{maximum monthly on-peak demand (Kw)}$$

where: MCP = Monthly Capacity Payment

MCF = Monthly On-Peak Period Capacity Factor

ENERGY SALES TO SMALL QUALIFYING FACILITY:

Service provided to such customers by the Company shall be billed at the appropriate rate, by class of customers (i.e., residential, general service, etc.) that is currently on file with the Commission.

SPECIAL TERMS AND CONDITIONS:

1. The rates shall be reviewed annually, updated if necessary, and revised upon the Commission's approval.
2. The Company shall install appropriate metering facilities to record all flows of energy necessary to bill and pay in accordance with the charges and payments contained in this rate schedule.

**DATA REQUIREMENTS
PURSUANT TO DOCKET NO. F-3563**

1. Background

The currently effective Rates 95, 96 and 97 were filed on June 1, 2001, and were approved by the Commission on July 11, 2001. The energy payments currently on file for these rates were generated by Montana-Dakota's production costing model (ProSym) for the 12 months ending June 30, 2002. The capacity payments in effect for Rates 96 and 97 are based on the Mid-Continent Area Power Pool (MAPP) purchase prices under which Montana-Dakota may purchase capacity in six-month increments which themselves are based on combustion turbine and base load generation costs. The current monthly capacity payment for Rate 96 reflects a MAPP Schedule J purchase price. The current monthly capacity payment for Rate 97 reflects a MAPP Schedule B purchase price. In addition, in accordance with the Commission's Decision and Order (F-3365), the currently effective rate schedules reflect the fact that no capacity payments will be made until capacity can actually be shown to be avoided.

After reviewing the metering charges and energy and capacity payments currently on file for Rates 95, 96 and 97, Montana-Dakota believes that these rate schedules need to be updated to reflect the projected metering costs and the avoided energy and capacity costs for the test year of July 1, 2002 through June 30, 2003. The methodology used in developing the proposed rates is identical to that used in developing the currently effective rates. The meter charges filed reflect updated meter costs and carrying charges.

2. Explanation

A. The proposed rate changes affect all classes of cogeneration and small power production service; however, there are no customers presently on any of Montana-Dakota's cogeneration or small power production rates in South Dakota.

B. The proposed tariff sheets are:

Section No. 3, 19th Revised Sheet No. 28
Occasional Power Purchase Non-Time Differentiated Rate 95

Section No. 3, 19th Revised Sheet No. 29 and 12th Revised Sheet No. 29.1
Short-Term Power Purchase Time Differentiated Rate 96

Section No. 3, 19th Revised Sheet No. 30
Long-Term Power Purchase Time Differentiated Rate 97

- C. The proposed rate changes apply to cogeneration and small power production services with a design capacity of 100 Kw or less, that are Qualifying Facilities as defined under 18 CFR, Part 292.
- D. The affected tariffs are applicable to all areas served by Montana-Dakota Utilities Co. in South Dakota.
- E. There are no additional special conditions, limitations, qualifications or restrictions upon the proposed tariffs.

3. Financial Impact

Not applicable since no customers are presently served on Rates 95, 96 or 97.

4. Precedential Effect

None.

On June 4, 2002 Montana-Dakota Utilities Co., a Division of MDU Resources Group, Inc., filed with the South Dakota Public Utilities Commission revised Rates 95, 96 & 97 which affect Montana-

Dakota Utilities Co.'s Cogeneration electric customers in South Dakota. The revised rates and South Dakota rules and regulations are available in this office for inspection. Please inquire at cashier's desk.

ELECTRIC

EL02-010 In the Matter of the Filing by Otter Tail Power Company for Approval of a Contract with Deviations with the City of Wentworth.

Otter Tail Power Company has filed for approval a Municipal Contract with the City of Wentworth and a Summary List of Contracts with Deviations. The municipal contract for the City of Wentworth was updated because the old contract will expire on July 1, 2002. The new contract does not include any new rates that would be considered a deviation.

Staff Attorney: Kelly Frazier
Date Docketed: 05/30/02
Intervention Deadline: 06/21/02

EL02-011 In the Matter of the Application of Black Hills Power, Inc. for an Order Authorizing Issuance of First Mortgage Bonds.

Application by Black Hills Power, Inc. for approval to issue up to \$75,000,000 of first mortgage bonds. Black Hills Power, Inc. states that the new bonds are proposed to be issued as a result of recent and forthcoming capital expenditures, debt service requirements and to establish a debt/equity ratio more consistent with other typical utility companies. This filing is being made pursuant to SDCL 49-34A-29 and SDCL 49-34A-32.

Staff Analysts: Dave Jacobson/Heather Forney
Staff Attorney: Karen Cremer
Date Docketed: 05/30/02
Intervention Deadline: 06/12/02

EL02-012 In the Matter of the Filing by Montana-Dakota Utilities Co., a Division of MDU Resources Group, Inc. for Approval of Revisions to its Occasional Power Purchase Non-Time Differentiated Rate 95, Short-Term Power Purchase Time Differentiated Rate 96 and Long-Term Power Purchase Time Differentiated Rate 97.

Application by Montana-Dakota Utilities Co. to update its cogeneration rates in accordance with the Special Terms and Conditions of the tariffs containing these rates. The application states the methodology used in developing the proposed rates is identical to that used in developing the rates currently on file.

**BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF SOUTH DAKOTA**

IN THE MATTER OF THE FILING BY)	ORDER APPROVING TARIFF
MONTANA-DAKOTA UTILITIES CO., A)	REVISIONS
DIVISION OF MDU RESOURCES GROUP, INC.)	
FOR APPROVAL OF REVISIONS TO ITS)	EL02-012
OCCASIONAL POWER PURCHASE NON-TIME)	
DIFFERENTIATED RATE 95, SHORT-TERM)	
POWER PURCHASE TIME DIFFERENTIATED)	
RATE 96 AND LONG-TERM POWER)	
PURCHASE TIME DIFFERENTIATED RATE 97)	

On June 4, 2002, Montana-Dakota Utilities Co., a Division of MDU Resources Group, Inc., Bismarck, North Dakota (MDU), filed with the Public Utilities Commission (Commission) proposed revisions to its cogeneration tariffs, specifically its Occasional Power Purchase Non-Time Differentiated Rate 95, Short-Term Power Purchase Time Differentiated Rate 96, and Long-Term Power Purchase Time Differentiated Rate 97:

Section 3, 19th Revised Sheet No. 28, cancelling 18th Revised Sheet No. 28

Section 3, 19th Revised Sheet No. 29, cancelling 18th Revised Sheet No. 29

Section 3, 12th Revised Sheet No. 29.1, cancelling 11th Revised Sheet No. 29.1

Section 3, 19th Revised Sheet No. 30, cancelling 18th Revised Sheet No. 30

At its regularly scheduled meeting of July 9, 2002, the Commission considered approval of the application. Commission Staff recommended approval.

The Commission finds that it has jurisdiction over this matter pursuant to SDCL Chapter 49-34A. Further, the revisions are just and reasonable and shall be approved. As the Commission's final decision in this matter, it is therefore

ORDERED, that MDU's revised tariffs as described above are approved and shall be effective for service rendered on and after the date of this Order.

Dated at Pierre, South Dakota, this 26th day of July, 2002.

CERTIFICATE OF SERVICE

The undersigned hereby certifies that this document has been served today upon all parties of record in this docket, as listed on the docket service list, by facsimile or by first class mail, in properly addressed envelopes, with charges prepaid thereon.

Re: Tariffs Reflecting Effective Dates
Docket No. EL02-012

Dear Ms. Elofson:

Montana-Dakota Utilities Co. (Montana-Dakota), a division of MDU Resources Group, Inc., herewith submits the following tariff sheets reflecting the effective date of July 26, 2002, pursuant to the Commission's Order approving the rates in the above-referenced docket:

- Section No. 3, 19th Revised Sheet No. 28, Section No. 3, 19th Revised Sheet No. 29, Section No. 3, 12th Revised Sheet No. 29.1 and Section No. 3, 19th Revised Sheet No. 30.

The original and 10 copies of this letter and tariff have been provided to the South Dakota Public Utilities Commission.

Please acknowledge receipt by stamping or initialing the duplicate copy of this letter attached hereto and returning the same in the enclosed self-addressed stamped envelope.

Sincerely,

A handwritten signature in black ink that reads 'Tamie A. Aberle'.

OCCASIONAL POWER PURCHASE Rate 95
NON-TIME DIFFERENTIATED

AVAILABILITY:

To any qualifying cogeneration and small power production (COG/SPP) facilities for the purpose of generating occasional electric energy in parallel with the Company's system. This schedule is applicable to cogeneration and small power production facilities with a design capacity of 100 Kw or less, that are Qualifying Facilities as defined under 18 CFR, Part 292.

RATE:

Metering charge for single phase service	\$1.80 per month	I
Metering charge for three phase service	\$7.20 per month	R

Energy delivered to and accepted by Company by a qualifying facility shall paid for by Company as follows:

1.524¢ per Kwh

(Energy delivered per month to Company is limited to 600 Kwh per month. Delivery in excess of this limit will not be compensated.)

ENERGY SALES TO SMALL QUALIFYING FACILITY:

Service provided to such customers by the Company shall be billed at the appropriate rate, by class of customers (i.e., residential, general service, etc.) that is currently on file with the Commission.

SPECIAL TERMS AND CONDITIONS:

1. The rates shall be reviewed annually, updated if necessary, and revised upon the Commission's approval.
2. The Company shall install appropriate metering facilities to record all flows of energy necessary to bill and pay in accordance with the charges and payments contained in this rate schedule.
3. The customer shall, with prior written consent of the Company, furnish, install and wire the necessary service entrance equipment, meter sockets, meter enclosure cabinets, or meter connection cabinets that may be required by the Company to properly meter usage and sales to the Company.

SHORT-TERM POWER PURCHASE Rate 96
TIME DIFFERENTIATED

AVAILABILITY:

To any qualifying cogeneration and small power production (COG/SPP) facilities for the purpose of generating short-term electric energy in parallel with the Company's system. This schedule is applicable to cogeneration and small power production facilities with a design capacity of 100 Kw or less, that are Qualifying Facilities as defined under 18 CFR, Part 292.

RATE:

Metering charge for single phase service \$ 5.75 per month
Metering charge for three phase service \$11.70 per month

Energy delivered to and accepted by Company by a qualifying facility shall be paid for by Company as follows:

SUMMER - April 1 through September 30

ON-PEAK

OFF-PEAK

1.793¢ per Kwh

1.270¢ per Kwh

Summer Peak Periods: The On-Peak Period is defined as those hours between 7 a.m. and 11 p.m. Central Time, Monday through Friday in Central Time zones, and between 6 a.m. and 10 p.m. Mountain Time, Monday through Friday in Mountain Time zones. The Off-Peak Period is defined as all other hours.

WINTER - October 1 through March 31

ON-PEAK

OFF-PEAK

1.872¢ per Kwh

1.283¢ per Kwh

Winter Peak Periods: The On-Peak Period is defined as those hours between 8 a.m. and 10 p.m. Central Time, Monday through Friday in Central Time zones, and between 7 a.m. and 9 p.m. Mountain Time, Monday through Friday in Mountain Time zones. The Off-Peak Period is defined as all other hours.

Definitions of on-peak and off-peak periods are subject to change with change in Company's system operating characteristics.

SHORT-TERM POWER PURCHASE Rate 96
TIME DIFFERENTIATED

Monthly capacity payments will be made on the basis of actual avoidance of capacity during the months of January, June through September, and December. Such payments are to be based on the capacity cost of combustion turbine peaking generation.

Monthly capacity payment = \$4.00 per Kw

R

Monthly capacity payments will be made based on a monthly 85 percent on-peak period capacity factor for the months of January, June through September, and December. The capacity factor is the quotient of the average monthly on-peak period metered capacity (Kw) delivered to the Company during a month, divided by the maximum monthly on-peak metered capacity (Kw) delivered to the Company during a month. All referenced metered capacity readings refer to one hour measured demands (Kw). The monthly capacity payment applicable for the months of January, June through September, and December will be made based on the following formula:

$$\text{MCP} = \frac{\text{MCP per Kw} \times \text{MCF}}{.85} \times \text{maximum monthly on-peak demand (Kw)}$$

where: MCP = Monthly Capacity Payment
 MCF = Monthly On-Peak Period Capacity Factor

ENERGY SALES TO SMALL QUALIFYING FACILITY:

Service provided to such customers by the Company shall be billed at the appropriate rate, by class of customers (i.e., residential, general service, etc.) that is currently on file with the Commission.

SPECIAL TERMS AND CONDITIONS:

1. The rates shall be reviewed annually, updated if necessary, and revised upon the Commission's approval.
2. The Company shall install appropriate metering facilities to record all flows of energy necessary to bill and pay in accordance with the charges and payments contained in this rate schedule.
