Subject: Excel Energy Big Stone to Bkgs Line

Chris Nelson and Kristie Fiegen,

I met with representatives from Excel Energy today on behalf of Gilley's Grove Ass'n. They have developed a new route which follows 483rd ave and 202nd street which is more acceptable to our group. The new plan does eliminate the diagonal line across our property and moves the line away from our trees. They will be submitting the new proposed route to you shortly as I understood them.

I do really appreciate the attention you both gave to our concerns. I was impressed with the way you both conducted the hearing on July 31st and especially your sincere concern during our personal visits. I will provide you with additional information if the need arises.

Again, thank-you both for your efforts.

Russ Larson
