Exhibit 21

No. 1

JUHL-008
Witnesses: Bleau J. LaFave; Luke Hansen
Re: Hansen Exhibit (LPH-1); LaFave Exhibit (BJL-1), LaFave Exhibit (BJL-2)

Since NorthWestern has updated its avoided cost estimates relative to the April, 2016 estimate provided to Juhl, please provide the following based on your filed testimony:

a) Please provide Excel-readable files of all spreadsheets, exhibits and supporting files underlying NorthWestern's avoided cost calculation for Juhl Energy.
b) Please provide in electronic format all supporting work papers and output of the PowerSimm modeling runs which NWE used to calculate avoided energy and capacity costs attributable to Juhl Wind's expected energy production. If any work papers are Excel-readable, please provide those work papers with the formulae intact.
c) To the extent not provided in part (b), please provide the PowerSimm Supply Cost Reports for the base case (current) portfolio and the alternative (current+ Juhl) portfolio in Excel-readable files.

RESPONSE:
a) Attached in folder Juhl-008.
b) Attached in folder Juhl-008.
c) Attached in folder Juhl-008.
