SOUTH DAKOTA PUBLIC
UTILITIES COMMISSION

Dear PUC

We are land owners in the Crocker Wind Farm who recently lost $\frac{2}{3}$ of our towers. However because we and other progressive and supportive Clark County Citizens want to see this project permitted for the benefit of All!

Geronimo has demonstrated thru its efforts to making the Crocker Project work for the community as a whole.

We should take advantage of the valuable commodity of wind. We should allow wind to provide benefits to landowners, townships within the project, the county and the Clark School District as well as the State of South Dakota. Thank You

PUC for your time + Hard Work.

Steve & Loretta Wicks
Clark, SD 57225
