Re: EL17-40- In the Matter of the Filing by MidAmerican Energy Company for Determination of its Energy Cost Adjustment Factor As Applied to Repowered Wind Facilities

Dear Executive Secretary:

MidAmerican Energy Company ("MidAmerican") files the attached spreadsheet (both public and confidential versions) to supplement attachments filed with responses to Data Request 3-1 in this docket. Upon further review of the information, MidAmerican and Commission staff identified that MidAmerican inadvertently filed a version of the spreadsheet that included a different view of the expected production tax credit values associated with South Dakota. MidAmerican provides this revision to ensure that the record is clear and complete in this docket.

It is critical to note that the revised information does not change the analysis of the impacts of MidAmerican's repowering project under the two scenarios identified in Data Request 3-1. Further, MidAmerican notes that the version of the spreadsheet included with this filing was provided to Commission staff separately and was available during the development of the staff memorandum.

As was true of the initial filing, the spreadsheet contains forecast information that is proprietary and confidential under ARSD 20:10:01:39. MidAmerican requests that the Commission maintain this information confidentially pursuant to the ARSD 20:10:01:40 or any other rule or statute governing confidential information.

If there are any questions or concerns with this filing, please contact me at 515-281-2559.

Sincerely,

Brian J. Rybarik
