Xcel Energy

Data Request No. 1-1

Docket No.: EL19-019

Response To: South Dakota Public Utilities Commission

Requestor: Eric Paulson

Date Received: September 4, 2019

Question:

For the Peak and Energy Control program, provide the number of hours interruptible load was called on in 2018.

Response:

There were no events called for the Peak and Energy Control program in 2018 due to milder than normal summer. With sufficient generation available to meet forecasted peaks during the summer peak season, it was not necessary to call any of the interruptible hours for the South Dakota Peak and Energy Control program.

Preparer: Michael F. Lewis
