We would love to get a wind tower! It would provide more income for our family! The wind tower is a great opportunity for more ~~[redacted]~~ jobs in the area!! The money they have given to the community is awesome!!

RE: PUC Docket # EL24-023 / South Deuel Wind Project

Dear PUC staff and commissioners,

I support the South Deuel Wind Project for the following reasons and request that the PUC approve the project's application. Thank you for the opportunity to provide input.

I Ron Tvedt do support the wind project. The electricity it will produce is much needed in the coming years. Its a great thing to harness the cold wind ~~b~~ blowing across the land to create power to heat and light our homes & bussiness.

The revenue it provids great too. It provides land owners with more income, and the tax revenue is good for our county & state.

The company thats building is great too. They have many projects that are allready built.
They also soppport the community in many ways such as scholarships for students in the area.

So please approve the permits. Ronald Tvedt

Sincerely,
