MIDAMERICAN ENERGY COMPANY
P.O. Box 4350
Davenport, Iowa 52808-4350

SECTION 3 – GAS RATE SCHEDULES
CLAUSE EECR – ENERGY EFFICIENCY COST RECOVERY

APPLICABLE

To all gas rates except for daily metered gas transportation Customers.

ENERGY EFFICIENCY COST RECOVERY

Costs are the unrecovered amount of energy efficiency expenditures including carrying costs for ongoing costs of current programs. The costs are allocated to Residential or Non-Residential and converted to a per Therm basis using sales forecasted for the recovery year for each of those classes. Energy efficiency charges will be shown separately on the bill.

ENERGY EFFICIENCY COST RECOVERY FACTORS

	Residential SVS, MVS	Non-Residential SVS, MVS, LVS, SVI, LVI, SSS, LSS,CPS, STM, MTM	
Total On-going MidAmerican Costs	($0.01321)/Therm	$0.01113/Therm	R/I

RECONCILIATION

A reconciliation will be filed annually. The energy efficiency costs recovered from Customers during the prior period will be compared to the actual energy efficiency program expenditures. Any over/under collection plus carrying costs will be the reconciliation amount.

The performance incentive (if any) will be collected from Customers in conjunction with the reconciliation amount.

The reconciliation amount plus performance incentive award, any ongoing costs, and any change in forecast sales, will be used to adjust the current energy efficiency cost recovery factors.
