

AUG 24 2007

SOUTH DAKOTA PUBLIC
UTILITIES COMMISSION

8/22/07

To whom it may concern; Keystone Pipeline

I was first contacted by land agents, Sara McTeaff on 4/4/06. I gave authorization for a field survey as she said it would be in the ditch by the road, then she called and said they were going to take a different route, and wanted me to sign for another survey, which I refused and she said, "we will just take it by eminent domain."

I have three quarters of good land. They want to cross right in the middle of this land. I farm these in mile rounds. I don't want them on my land.

What they are offering to pay is very little for what they will gain per day profit.

The pipeline might be right, but it is in the wrong place.

Thank you,

P.S. I would like a letter Sincerely,

from the PUC and Attorney General

explaining what action you have taken. Richard Voss
