

12-5-16

Dear S.D. Public Utilities Commission,

We were very disappointed in the news that our National Gas Farm Tap may be eliminated in 2017.

We have had the farm Tap for 37 years. We feel we have the right to have National Gas because of an land easement agreement between NNG & my dad Henry Hass in the late 1950's this document is recorded in the Reg. of Deeds of Clark County anything that I can do to save our gas Farm Tap please let me know

Thankyou,

very much

Francis Hass
