Re: TC15-062 – In the Matter of the Application of **NextGen Communications, Inc.** for a Certificate of Authority to Provide Local Exchange Services and Interexchange Long Distance Services in South Dakota

To Whom It May Concern:

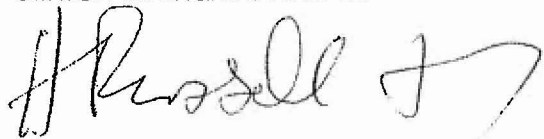

In accordance with SDCL § 49-31-70 and ARSD 20:10:32:04, please be advised that on August 17, 2015, NextGen Communications, Inc, submitted an application for a Certificate of Authority with the South Dakota Public Utilities Commission to provide local exchange and interexchange services in the State of South Dakota.

NextGen seeks certification so that it may provide VPC and MPC services in South Dakota which involve the aggregation and transport of emergency local, VoIP, telemetric, PBX, and mobile E9-1-1 traffic, the management and transmission of location and calling number data, and the provision of call routing management for the delivery of emergency calls to Public Service Answering Points (PSAPs) throughout South Dakota. NextGen's services are used by PSAPs as well as large wireless carriers, VoIP providers, cable TV system operators who provide telecommunications services and/or VoIP, telemetric operators, PBX users, and mobile voice service providers. NextGen does not currently provide long distance voice toll services or local exchange voice dial tone services to residential or business customers. However, in order to aggregate and transport emergency calls and/or calling data, NextGen may require the same sort of interconnection and co-location made available to certificated Competitive Local Exchange Carriers ("CLEC").

NextGen intends to provide service as soon as practicable upon approval of the CLEC Application.

Sincerely,

Stinson Leonard Street LLP

H. Russell Frisby, Jr
Counsel for NextGen Communications, Inc.
