Section 5.04 EXTENSION RULES AND MINIMUM REVENUE GUARANTEE

T

The Company will, at its own expense, extend, enlarge, or change its Distribution or other facilities for supplying electric service when the anticipated revenue from the sale of additional service at the location justifies the expenditure.

If it reasonably appears to the Company that the expenditure may not be justified based on a three-year projection of revenue received from the Customer's applicable rate schedule(s) under which the Customer is taking service, except for sales tax, franchise fees and other governmental charges collected by the Company on behalf of governmental authorities, the Company may require the Customer to sign an Electric Service Agreement guaranteeing a minimum payment of no less than three years use of electric service. If the Company has reason to question whether the Customer will maintain adequate creditworthiness, cease taking full requirement from the Company, or for any other reason may fail to make payments for service, including the service extension charges, the Company may require the Customer to pay in advance, or require any additional conditions of service that are reasonably necessary to protect the Company and its Customers.

The Company shall provide to the Customer an estimate with detail of the costs prior to construction.

T

If at the point of true-up at the later of the end of the initial three-years of service or the end of the contract period of service, the Customer uses and pays for more than the specified guaranteed minimum amount of electric service, which the Customer contracted to purchase, any advance that may have been made in excess of the guaranteed minimum amount when calculated based on actual usage will be refunded to the Customer together with interest at the rate provided for Customer deposits under South Dakota Public Utilities Commission Administrative Rule 20:10:19:08. However, if the Customer uses less than the guaranteed minimum, the amount of the difference between the guaranteed minimum and the actual usage will be billed to the Customer.
